

SELF - ASSESSMENT TOOL

Health & Wellbeing Misinformation, Disinformation and Fake News

> According to the new skills agenda for Europe, close to one-fifth of young **Europeans struggle with** using digital tools and handling information and data in everyday life.

The Self- assessment Tool will provide young people with an overview of their own digital and media literacy competencies in relation to health and wellbeing.

THE TOOL:

- Highlights the competencies in which they are strong
- Motivates them to work to improve the digital skills in which they are weaker by providing an upskilling pathway.
- It can also be used as a post-assessment to check their digital competencies after attending training.
